The Benwood project

Thomas Lewis

This project is **financed by the EU** within the FP7 programme.

The sole responsibility for the content of this presentation lies with the authors. It does not necessarily reflect the opinion of the European Communities. The European Commission is not responsible for any use that may be made of the information contained therein.

What to get from this project, how to link to it

1.  Guidelines
2.  Research Agenda
3.  DVD
4.  Stakeholder Advisory Panel

Guidelines for project developers on SRF in CDM countries

1. Participate in **shaping online guidelines** on implementing SRF in CDM countries. We provide you with exclusive access as an editor and an 'author buddy' from within the consortium.
2. Profit from first interim results and the internal discussion

BENWOOD Research Agenda

1. Have an insight into **currently open R&D questions within the SRF sector** discussed among scientists from Brazil to China
2. Pick input for **designing your own future research projects**
3. Find out **what has already been done on R&D** within the SRF sector in different countries worldwide

BENWOOD DVD

1. Includes **films**, pictures, and pdfs on relevant SRF topics
2. Provides information on **real case studies and business scenarios** for CDM projects
3. First version available by the **beginning of 2011**

Stakeholder Advisory Panel

1. Exchange online information with top experts and scientists worldwide
2. Become visible to **more than 100 scientists** on the web site worldwide (provided your consent to data disclosure.)
3. Participate in the **Benwood SRF webinar workshops** (internet trainings) at a discounted rate
4. Obtain a **free DVD** with films, pictures and PDFs on relevant SRF topics

BENWOOD Final public workshop - Short Rotation Forestry in CDM countries

1. Linking event of top experts, scientists and project developers in the SRF and CDM sector. Focus on India, China, Africa and Brazil.
2. Includes a **one day field trip visiting SRF fields and laboratories** of one of the world's leading poplar breeders
3. More information available soon on the Benwood website (www.benwood.eu)
